

Overview of the Special Education Process

Classroom Teacher identifies student needs. The Classroom Teacher provides instruction to support student needs as per **Learning for All, 2013**.

Parents are involved at each level of the process.

Classroom Teacher discusses student needs with the SBST, including the Principal, the Special Education Teacher, the Department Head or Guidance (in Secondary). He/She implements suggested strategies and observes and reflects on student progress. An IEP may be developed to support student needs.

Student lack of progress may suggest the need for strategies beyond those identified through SBST. The Psychologist, Social Worker, Speech and Language Pathologist and Assessment and Programming Teacher may provide additional strategies to school staff to support student learning at an SBSLT.

An IEP may be developed to support student needs or may be expanded to include new strategies. If appropriate, a student assessment may be requested.

Assessment results may indicate the need to identify a student. An IPRC may be held to determine the identification and placement of a student.

Each year the Identification, Placement and Review Committee meets to review student progress.
