--	---	--	---	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Distance, School not functioning</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Too far to travel</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>walking distance; this is the school site we chose to send our child</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>noise from construction, congestion, distraction</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>Why were we not notified earlier about the change?</p>
--	---	---	---	---

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>8 parents 3 students (1 brother)</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>Cafeteria, gym</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>Cafeteria and gym, mould on the wall</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>Cafeteria and gym, mould on the wall</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>Do not wish to relocate. Pick up point is best option if required.</p>
---	---	--	---	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>There will be a large decline in enrollment if they move to this site.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>There will be a large decline in enrollment if they move to this site.</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>Will provide students with consistency. - this is why they came here in the first place, to be at this location and no where else. This move will destroy the school heritage.</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Asbestos and health concerns. disruption of classes.</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>"DO NOT RELOCATE!!!! DO NOT RELOCATE!!!! DO NOT RELOCATE!!!!" Anger over the way this was dealt with and how the community found out; students that have been accepted have not been informed of any possible.</p> <p>Understood that repairs still need to be done - get more staff and shifts in place to get the work completed.</p> <p>Parents will be angry if certain courses will not be offer to students due to lack of enrollment as a result of relocation.</p> <p>Split of grades and concerns is a concern.</p> <p>Parents feel that the option has already been made without consultation.</p>
--	--	---	---	---

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>4 parents, 1 student</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>Convent side should be updated for student use Update the gym Open the pool for swimming Track for students Air quality to be monitored regularly</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>Open the pool for swimming Track for students Update windows Update security system</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>Open the pool for swimming Track for students Update windows Update security system</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>3/5 people say TTC tickets. 2/5 do not want to answer because do not like the options. Do not want to move.</p>
---	--	---	--	--

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Not interested in this location But 2/5 would prefer over Tyndale in order to keep the school community together.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Good option 3/5</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>Disadvantage: things will take longer to do the work over a longer time. Positive: The students remain in their school community. To do it in one year the school will be a better place.</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Noise, disruption, pollution, dust , etc. Safety of the students with people working at the school. Longer period of renewal work Are the timelines going to be followed? What if they are not what is plan ?</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <ul style="list-style-type: none"> <li>* Is there a plan for the extra work that is not critical such as the gym, the convent, the windows.</li> <li>*If we stay at the school what is the plan to do this work.</li> <li>*Disappointed with the notice given to parents.</li> <li>*Why didn't we know about this reallocation plan when the study was done?</li> <li>* Why only have 4 months to plan for our children's future?</li> <li>* If students transfer there will be a cost factor: uniform, distance</li> <li>*If students want to transfer will they have assistance to have another High School choice</li> <li>*Will the summer school transition program still be offered.</li> <li>*The disclosure of what was happening at Loretto should have happened before the grade 8 student chose their school</li> </ul>
---	---	--	--	--

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>7 people - All parents</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>More Classroom Spaces, More socializing spaces, Security System upgrades (CCTV)</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>More Classrooms and spaces for students to get together. Safety and security systems as well.</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>More Classrooms and spaces for students to get together. Safety and security systems as well.</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>Depends on location of students. Boylen Option - Centralized Pick up Points, Tyndale Option - TTC Tickets.</p>
---	--	---	--	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Non-starter, not moving, not going to do it - everyone at the table would not consider a move. They would most likely move their kids out of the TCDSB altogether.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>Minimal disruption to students lives, to community, to parents. Advantages outweigh the disadvantages significantly.</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Would be losing TCDSB students from Loretto Abbey. Work on the school must be safe for students otherwise it is a disadvantage.</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>What is occurring at the TCDSB Board meeting on February 13th?  If the students stay on site at Loretto Abbey and the work runs over timelines and over the summer, what options or Contingency plans will happen? Will the building be ready? Will there be a delay in the work on the school?  If the students stay on site at Loretto Abbey the worry is that the other renewal work will not be done besides the boiler.  Is the design of staying at Loretto Abbey done or in progress?  Is there going to be further community consultation apart from this session?  What do the teachers at the school think of all of these options?  Community Consultation should include all members of the community. The option to stay at the school is best for the entire community.  All parents would like to stay on the site of Loretto Abbey!!!!</p>

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>Students, parents, neighbours,</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>new gym new proper cafeteria auditorium needs restoration</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>moisture in the basement, cracks in foundation</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>moisture in the basement, cracks in foundation</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>Will TTC add extra buses directly to Nelson Boylen? Does community get involved in TTC bus rerouting decisions? Who pays for TTC adding extra bus service? Are the safety of kids taken into consideration by re routing buses Timelines on answer? How quickly can TTC provide updates ? Why hasn't TTC been consulted</p>
---	--	--	---	--

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>some parents like it travel distance and issue organizing for September and everything will not be complete on time enrollment would decline/ students would transfer out extra curricular activity will suffer</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>not suitable for anyone distance issue separating the kids is an issue not big enough too far</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>school community remains in tact no uprooting children no disruption to the kids chapel kids know the school continuity new systems/computers won't be required special programs stay in tact sports programs local convenience after school activities</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>what are the risks? is safety being considered? everything done according to occupation health and safety no risk... mitigated... will there be disruption to students during exam time?</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>will the foundation be impacted by the proposed work? is there moisture issues? cracks in the foundation? waterproofing? Is this being considered? why wasn't Nelson Boylen considered for Dante students? its much closer</p>
---	---	--	---	---

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>5 parents</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>Cafeteria - tiles on the wall, upgrade Kitchen with pass, new gym.</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>no other work.</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>no other work.</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>TTC Tickets</p>
--	---	--	---	--

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Don't want it, building has been empty for 4 years, hard to get to - not off a TTC stop, huge inconvenience, want to keep the community together, potential loss of students and potential loss of programs</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Worse idea, don't want to divide the staff and students, potential loss of students and potential loss of programs</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>Kids well-being, not going to be worse than what they have put up with for the last few years, keep the student community together, no disruption to post-school activities (jobs) and extra circulars</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>can the timelines be met and guarantee the safety of students, doesn't need to be 2 years as long as it is done right and students are safe</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>Meetings about the building have ended 2.5 years ago  The issues were said to have been completing just waiting on funding  No discussion on relocation, now it's an emergency  Most of the things on the list were said to have been done at some point  what is involved with the air testing after the the asbestos removal?  Are the people already lined up to do the repairs?  In the odd event if the asbestos gets into the air, what is the contingency plan?  Is the compressed plan going to include all of the other upgrades?  Disappointed with the conduct of the elected official  The transparency on this project has not been good</p>
---	--	---	--	--

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>4 parents</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>No</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>New gym</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>New gym</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>#1 I won't send my child to Boylen. If it is Tyndale, I would prefer TTC tickets. If there is an after-school program, I would want a bus.  #2 Tyndale location has not been upgraded for 30 years. I would prefer centralized pick-up points.  #3 I would prefer the Boylen site. I prefer TTC tickets.  #4 I prefer TTC tickets.</p>
--	---	---	--	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>#3/4The building is vacant now. It is newer shape than this building. Nice grounds. More convenient location. There are peripheral issues. No public transportation. Will be a 20 minute walk from bus.</p> <p>#2 The location is far from our location (would take 1 1/2 hours). We would have to hire a private driver.</p> <p>#1 We would not send our daughter to Boylen.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>#1. Split between 2 campuses is not ideal. Would it be by grades (separate Gr 9s). Transportation is still problematic (not on the subway line).</p> <p>#3 Building is in worse shape than Loretto Abbey. Can they confirm that Tyndale is in better shape?</p> <p>#2 Washrooms have not been upgraded for 30 years. The gym looks like it was in good shape. Grounds are gorgeous. Both sites are far from the Abbey. We researched and signed up for the Abbey because of the location. I don't know if I would have chosen the Abbey had we known about the relocation. My concern is that the time will take longer than quoted. Is there a guarantee that we are back in the stated time? We would NOT be willing to relocate for 2 years (especially for Grade 10s, 11s and 12s).</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>We continue on as we signed up for. No locations are better than the Abbey. Keeps girls together as a community. They have pride in their school. Relocation would decimate the student body.</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Concern that once the work is started, they might have to leave because of what they found. Open up Pandora's box...they find things that would cause the school to relocate anyway.</p> <p>The noise.</p> <p>Health &amp; safety concerns: air is not clean.</p> <p>Would the gym, extra space etc. be possible if the students remain on site?</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>Are they ready to go? Are permits in place? Concern that the delay would be caused if the permits are not in place. Seems like it's a last minute decision.</p> <ul style="list-style-type: none"> <li>- Is funding blocked off for the renovation?</li> <li>- Are the bids in? Will take time for bids to be put in.</li> <li>- Can they start with retrofitting the convent with classrooms first and then move the students there once finished? Following that, they could work in sections on the Abbey.</li> <li>- If we do the phased approach, will we still get gym and extra instructional space?</li> <li>- Is it a critical need to start with the boiler? Is it a safety issue?</li> <li>- There are many examples of projects sitting empty because of permit delay. We hope that the dates given are conservative. Is there a contingency plan?</li> <li>- Is the current political situation a factor?</li> <li>- What time does the 18 months start for the relocation? I want to be back in September 2021.</li> <li>- What is the contingency plan/business continuity plan if we stay in place and then need to vacate?</li> <li>-What are the contingency plans for relocation to all 3 plans.</li> <li>- What are the dates for relocation (none given in the powerpoint)?</li> <li>- I really hope they can manage onsite.</li> </ul>
---	---	--	---	---

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>12</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>None mentioned</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>Want girls to stay but would like the other items mentioned after the boiler is replaced (Would have liked to see a grid with all options compared) want to know what work can take place at the same time, place portables in the back</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>Want girls to stay but would like the other items mentioned after the boiler is replaced (Would have liked to see a grid with all options compared) want to know what work can take place at the same time, place portables in the back</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>School Bus - Transportation cost saved by staying should be redirected to renewal; may consider a blended model</p>
---	---	---	--	--

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>no one is interested in Boylen</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Concern - students in two location - one family wants kids together</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>Girls get to stay; no disruption; don't lose kids to public system/private school</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Delay because it takes longer; double shift doesn't sound feasible; asbestos removal - what if not done in time-what happens to the kids; safety may be an issue; extra bodies, disruptions</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>possible solution if work not quite done - parent suggestion - okay to temporarily have some kids go somewhere else; portables - may be a planning restriction but a consideration Notifying community - is this necessary - no because internal issues Asbestos abatement - asked about safety cheques</p>

In addition to this work, please list your top three priorities.</b></p> <p>mould in classrooms cafeteria not functional; food brought</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>would leasing be made to international students? - use of classrooms in other areas of the building - what is the plan for the future</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>would leasing be made to international students? - use of classrooms in other areas of the building - what is the plan for the future</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>Impacts: Grades 11/12 with spares coop and sport during the day</p>
--	---	---	--	--

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>either school will impact the students travel time (from 1 to 3 hours) option 1 not an option</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>issue is the division of the students</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>If enrollment drops this may impact french immersion and AP programs -less stressful for families, students, staff - have benefit of chapel</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>what happens if the work is not finished on time? - are their concerns if students are remaining in the school while the work is being done? -no sidewalks, could pose a problem due to traffic congestion running a construction site simultaneous to a school (drop off and pick up) - will there be risk of asbestos after time?</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>Option 3 is the only option</p>
---	---	--	--	--

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>2 high school teachers (TCDSB), 1 project manager and a community member</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>Contingencies regarding exposure to possible health concerns (mold)</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>Has any consideration been given to renovating the pool?</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>Has any consideration been given to renovating the pool?</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>The group suggested a hybrid approach where parents can either elect to opt for TTC tickets or ride the school bus. TTC strategies to help reduce walk time will play a role in the decision. A parent noted that the use of school buses would build comradery and reduce truancy.</p>
---	--	--	---	--

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>A lack of direct TTC bus access (distance from the school) is problematic. The fact that portables would be involved is a financial concern to the board. Necessary maintenance is also a concern.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Distance remains a concern. Creates a dis-continuity to the community. Parents appreciate the effort to create alternative options.</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>Community continuity - familiarity of environment and positive impact on the teaching /learning environment. This site is what informed the decision to enrol at the school. Continuity of transportation arrangement to and from school. Ability to seamle</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Safety control measures given the use of construction equipment/vehicles. Contractors meeting deadlines.</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>Parents insist on regular and timely updates re project status, asbestos abatement and air quality testing.</p>
--	---	--	---	--

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>10, one student, 8 parents.</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>Parents don't know any other renewal needs required as they do not have a technical expertise in the field. Safety is paramount, so whatever is most critical for the Students to remain safe.</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>The gym, Junior cafeteria, washrooms, classrooms in need of renewal work.</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>The gym, Junior cafeteria, washrooms, classrooms in need of renewal work.</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>Vast preference is for centralized pick up points for the students.          -Question for what is the cost of centralized bussing.          -Is hybrid option available for kids that may have to go to work after school or have a spare and can't make the bus.</p>
--	---	---	--	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Parents feel that any money spent on Boylen would be wasted as it is to be torn down in the near future. In addition it is too far to send the kids. Student said that it was a bad area. Parents are concerned if timeline would actually be one year. One parent is convinced that Boylen would have to be torn down before Loretto Abbey is ready. Parents are concerned about church space and how it would be created.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Parent has issue with two campus system. It would break up the Loretto Community this is with separating the kids at the two campus's. Parent is concerned with the rivalries between the two schools. Issues with if siblings are at two different campus's. How would the students be distributed, would they still take part in school events, assembly's etc..... Student asked how would extra curricular activities work if grades are split between the two campus's. Parents would like to know why the new potential tenant for Tyndale fell through.... Parents and student are concerned about staff moving between both campuses. Parents prefer Tyndale over Boylen.</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>Why did it take so long to implement this phasing. The school community would be kept together. The community would be decimated. For the grade 11's, there is an advantage to graduate within the building that they have started at. Less stress for the s</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Safety of the students during renovation.</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>What would the grade 9 orientation look like in July.</p>
---	---	---	--	--

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>7 parents (one parent/teacher) 1 student</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>None. (many newer parents)</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>None at this time</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>None at this time</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>Will there be shuttles to Boylen site? Dedicated site to pick up and drop off. Busing is expensive (\$50,000)/year - where will this budget come from?</p>
---	---	---	--	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Too much money for Boylen - reworking Boylen and adding portables, feels unnecessary. Perhaps Yorkdale as an option for pickup-dropoff. Any extra curricular activities, it would difficulty for pick up.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Two locations, and not really a great option. From this group, this would be a worst option. Disjointed. Harder to create community. Tyndale is a more rundown site (the group feels). It is too difficult with two location sites.</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>If the school stays, not as much work can be done. Timing seems to be a question if the school went off property (will it only be one year). Could impact the enrollment of school, less courses, less faculty because of less courses. Would we lose the ext</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Will there be a risk of asbestos? No risk - because the asbestos will be removed in the summer. The amount of work seems to be less if staying on the property. The disadvantages about not getting the work done, and only selected work completed.</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>More voice required from student body and the staff members. Their opinions matter because this would effect them the most.</p>

Option for school bussing would be more inclusive (some students may not be independent and able to take TTC)</p>
---	--	---	--	--

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>not interested. lose the culture of your school. if it must come to pass the Boylen site is an inconvenience but it accommodates everyone at one location. you will likely lose students if you go to this site. you will lose people either way. you may lose people because of health concerns with the construction. would consider it</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>students at Loretto were waiting to see what happens at St. Joe's. concerns about two campuses as it relates to siblings, mentorship. location is further from home for some families.</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>less disruption, friends stay together, milestone time, they chose their high school and want to stay with the group, asking them to disrupt their teen years with this move. keep them here and preserve that. commute is better for some families. what do th</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>asbestos, construction problems, could be intrusive and annoying, risk of having work completed before students move back in September (high risk) other upgrades won't occur because of funding and lowering on the list of capital projects</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>question: can you please identify if the funding for the original plan proposed (the addition) is locked in? or is the funding changing per option? if so original option that includes addition is preferred.</p>
---	--	--	--	---

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>5 people. 3 women and 2 men.</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>all if possible even if it takes more summers but remain in building.</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>all if possible even if it takes more summers but remain in building.</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>all if possible even if it takes more summers but remain in building.</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>They should have both. Concern over where the centralized pick up spot would be. Combination of both is preferred.</p>
---	--	---	--	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Not an area they want to send their kids. Neighbourhood is a safety concern. Too far for the people at the table. Comment above regarding Nelson A Boylen safety concern being false. Traffic patterns and congestion make it difficult.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Concern over the two campus split. If you had any other choice, this is the best location. Similar design, the other campus is not far. Concern over conflict of both schools. is there a risk of the new girls changing schools. concern over loss of students that will want to go to the newer St. Joseph Morrow Park school. Already established as a school, so bus infrastructure is there. No need for modifications.</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>As long as its safe. If they can demonstrate they are being safe with the asbestos removal then it is the preferred option.</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>That it won't be done in time. If they find bigger issues, then what?</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>Preferred option is to stay on Is there a contingency plan if the asbestos goes into the air in the sections where the classroom spaces are if it goes beyond august 31. All renewal work should be completed while building is occupied, even if it significantly increases timeline of work. Are we ready to start or will this consultation process delay if we need to do more consultation?</p>
--	--	--	--	---

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>Ryan Regacho - Parent Michelle &amp; Michael Camacho - Parents Sandra Brown - Parent Grade 9 Giovanna Romana - Parent Maureen Bellmore - Parent (Grade 9 &amp; all students) John Nvarette - Parent</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>the water leaks that occur in classrooms. - the gym is pretty small - Boylen is very small and not a good option to relocate to. Concern about safety issues for the kids for Boylen due to transportation. there was homicide shooting and it is a concern.</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>Stay focussed on being on campus and consider it as a project and get it done.</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>Stay focussed on being on campus and consider it as a project and get it done.</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>Parent 1 - I am opposed to any relocation. Parent 2 - If push comes to shove, I would opt for centralised pick up point. Parent 3 - Suggestion: Consider Express buses from York Mills and Wilson with a stop at the school.</p>
--	---	--	---	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Boylen is very small and not a good option to relocate to.</p> <ul style="list-style-type: none"> <li>- Concern about safety issues for the kids for Boylen due to transportation. There was homicide shooting and it is a concern.</li> <li>- Concern that this school is a ghost school and worried about what resources are going to be there? Do we have a science lab, no chapel, are there sports fields, will they be able to maintain it</li> </ul>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Tyndale and the new St. Joseph Morrow Park location are much better as a relocation site if absolutely necessary compare to the Boylen site. - Are there any issues with the present Tyndale site?</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>Less disruption. The benefits of staying is far more better. Retain the student population and it enables extra-curricular activities.</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>The risk is if something comes up suddenly, we won't be prepared and we will complicate the process as now where do we go? Example: So make sure you have a back up plan.</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>The third option is great but what are the contingency plans in place if things don't go as anticipated. How realistic are the timelines.</p> <ul style="list-style-type: none"> <li>- What are the next steps and how are you going to communicate to both prospective parents and current parents?</li> <li>- Unfair for students; especially for students graduating in 2020 who may now have to go to another school.</li> <li>- A fear of starting fresh in Grade 12 as relationships have already been built with staff, students, friends, teachers.</li> </ul>

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>7 parents and 2 students</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>Nothing specific</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>Centralized pick-up points is preferred. LA to be the pick-up spot. Combination of busing to a centralized pick-up and drop of location accessible to TTC.</p>
---	---	--	---	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Too far. All the students will be together. Limited public transit. Perceived safety concerns. Possible over crowding. Will the site need to be prepared? Boylen has a long walk after the bus drop. Boylen is too small. A portion of the kids will have to be in portables wilchi is not a best scenario.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Seems closer (easier access to the site). Are the classrooms near to each other as opposed to spread out? No additional cost to prepare.</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>Staying at the school, no travel, no distrupction to the students, no start-up costs, happy students and parents, retain student population and staff.</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Potential distrupction if something goes wrong, any issues in the facilities because of construction, safety risks, unexpected closures during the project, unable to offer the Grade 9 pre course, delayed improvement of identified issues</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p>

<p><b>Please list the number of people in your discussion group, and where possible include demographics (i.e. student, staff, parent, community member, neighbour, etc.)</b></p> <p>16 people total: 3 current students, 1 prospective student, 12 parents (1 being TCDSB staff)</p>	<p><b>Question 1: The heating system replacement is critical and must be done as soon as possible. In addition to this work, please list your top three priorities.</b></p> <p>Again, group did not feel they have the expertise to respond to this question.</p>	<p><b>Question 2: Are there other renewal needs you think should be addressed that are not listed?</b></p> <p>Any work that is integral to the building's safety.</p>	<p><b>Question 3: Is there any other renovation/renewal work you would like considered as part of this renewal project?</b></p> <p>Any work that is integral to the building's safety.</p>	<p><b>Question 4: What is your preferred transportation option, if relocation is desired by the school community: centralized pick-up points or TTC tickets provided to student</b></p> <p>One student expressed that centralized pick up spots would be the most ideal for students; one student commented that subway tickets are not accepted at all stations/transit and this would need to be considered - would presto cards be provided?</p>
---	---	---	--	---

<p><b>Question 5: What are your comments on the use of Nelson A Boylen as a relocation site?</b></p> <p>Parent commented there is no left turn at Falstaff and Keele (not even buses can run that way), impacting student pickup and drop off; there is only one bus stop near the school; many concerns about impact on extra-curriculars: swim team practices at Douglas Snow and track and band have early/late practices, their days would be even longer; students in extra-curriculars not related to school but in the Loretto neighbourhood would likely have to quit due to impact on travel time; lots of concern for the amount of time students would spend commuting on transit each week.</p>	<p><b>Question 6: What are your comments on the use of Tyndale as a relocation site?</b></p> <p>Students were concerned about staffing changes - what would happen to teachers teaching different sections of subjects if grades are split between sites? Would they travel between sites?; Would Loretto and SJMP operate as two separate schools in one building, or would students be integrated?; Students hoping to upper year classes were concerned this would not be an option with this model of two sites (i.e.: grade 10 student hoping to take grade 11 course); Would there be any impact on class periods (if teachers had to travel between sites)?</p>	<p><b>Question 7: What do you see as the benefits/advantages of the proposed phasing option (discussed in the presentation) for replacement and steam-to-hot-water conversion of the heating system while remaining at the Abbey?</b></p> <p>All (16) participants want this phased approach. Benefits cited include: keeping the community united, students can stay with their friends, students and teachers would not be split up, extra-curriculars (school and other) would not be impacted, no increa</p>	<p><b>Question 8: What do you see as the risks/disadvantages?</b></p> <p>Participants stated it is too early for them to understand the associated risks, but did question how the school would be sectioned off in order to accommodate renewal work. Parents wondered where grade 8 students would complete their summer course under this plan, as the building would need to be empty this summer, parent stated "I'd rather not have the summer course and stay here".</p>	<p><b>Please ask the table to share any additional comments or questions they may have. Please list as bullets below.</b></p> <p>Group stated you will lose the school community by moving. The community is worried about mental health issues, the students are stressed, and a potential move and separation of friend groups is stressing them out even more; Students stated, "We have the opportunity to go to Lawrence Park, North Toronto, etc. but we want to be here... there's a real community here, you don't find that everywhere"; "Almost all of us would need to leave the Board - there is no Catholic school in the area" and that students are already applying to different schools; friend groups exist that have been formed since elementary school and students expressed concern over trying to make new friends at this point in their high school career would be difficult; Any school move would be difficult on all students, but even more unfair to grade 9s and grade 12s as it would impact their year and experience. Parents questioned how the the Board was able to find an additional school site in one week's time; parents questioned the timeline of construction on site. It was noted that grade 8 students became aware of a potential relocation one day after they received their acceptance to Loretto Abbey, and this was unfair and inappropriate.</p>
