For Board Use Only
 Delegation No. ____
 Public Session
 Private Session
 Three (3) Minutes

Name	Adam Bienenstock
Committee	Regular / Special Board
Date of Presentation	7/23/2020
Topic of Presentation	Outdoor Education - Outdoor Classrooms
Topic or Issue	Using outdoor classrooms to deliver current curriculum outdoors while meeting the physical distancing protocols for COVID-19.
Details	<p>COVID has changed the way we will go back to school.</p> <p>The OutClass™ outdoor classroom system offers a natural, flexible, pedagogically sound approach to quickly scaling up your classroom capacity outside to take the pressure off your teachers and school inside.</p> <p>Reduce exposure to COVID19:</p> <ul style="list-style-type: none"> -Surfaces naturally disinfect overnight* -Seat spacing naturally reinforces distancing protocols -Each student seat provides a backpack hitch to keep materials self-contained <p>Quick set up and take down:</p> <ul style="list-style-type: none"> -Low-impact surface mount system -Each classroom can be set up or removed in an hour -Convert an entire soccer pitch into an outdoor school in a day -Quickly remove and recover your fields for their original use. <p>Effective, flexible teaching space:</p> <ul style="list-style-type: none"> -Allows for infinite configurations of seating and breakout groups -Moving tool allows you to reconfigure and adapt to distancing protocols -Buffers between classes and shelter enhance the learning environment

-Teacher tested and approved

Transforms into a play structure

-Once pandemic protocols end, each classroom is designed to be re-purposed into a fully compliant (ASTM, ANSI, CSA, ADA) and engaging multi-age playground

-Classrooms can also be re-purposed post-COVID into outdoor gathering, social seating, student study groups, and even bleachers for your sports fields.

Designed for fast and efficient shipping and set-up, OutClass™ can transform your open space into an effective outdoor school in a single day. Blackboards for teaching; solid, stable, natural seating and desk space that maintains distancing; curriculum and equipment storage; buffers between classes; shade and inclement weather protection – all are delivered and set up in one day without damaging your field. The smart approach to quickly and safely scaling up your classroom capacity outside to take the pressure off your teachers and school inside.

When the rules relax or your needs change, the OutClass™ flexible seating and workstation configuration can quickly adapt. Each OutClass™ system ships with equipment you will need to set the components into alternate patterns that will accommodate any teaching style.

Nobody knows when the threat of COVID will dissipate, but when it is time to shift the Outdoor Classrooms into its next configuration, we are only a call away and ready to help transform the components into an array of options from amazing playstructures to creative social gathering spaces, benches and bleachers, and of course, spectacular, permanent outdoor classrooms!

And with the OutClass™ system's unique surface mounted process, your field will quickly be back in business!

Our team at Bienenstock has been building outdoor learning and play spaces for two decades and we are excited to introduce the OutClass™ outdoor classroom system.

In the fall our children will be back at school... one way or another...

	<p>We are all grappling with physical distancing and curriculum delivery in school buildings that were designed to gather students close together, not spread them apart. The solution is just outside your door!</p> <p>OutClass™ offers a natural, flexible, pedagogically sound approach to quickly scaling up your classroom capacity outside to take the pressure off your teachers and school inside.</p> <p>We offer an array of standard modular OutClass™ sizes from 15 to 30 students, and beyond. Take a look at our standard options below. If you're interested in a custom build, or would like to add additional components to your project, please don't hesitate to give us a shout, we'd be more than happy to walk you through the process.</p> <p>www.outdoorclassrooms.com</p>
Action Requested	Receive and request report from staff on feasibility of purchasing and installing OutClass throughout the board.
I am here as a delegate to speak only on my own behalf	
I am an official representative of the Catholic School Parent Committee(CSPC)
