

How will we learn if the student CAP is lifted?

One on one learning will be limited.

Teacher's can't mark everyone precisely.

Our goals won't do so nicely.

Those goals will be taken by others.

And those below won't have druthers.

For there won't be any room to grow.

When your class so big, but feel all alone.

You won't get that second chance.

You won't get to enhance.

For you will be overlooked.

How will you learn in a class that's practically overbooked?
