Members of the Board of Trustees,

RE: Policies Recommended by Governance Committee

Last week the Governance & Policy Committee recommended various policies that are before you this evening to consider.

Our review of these policies does not appear to directly impact Catholic School Parent Councils (CSPCs) however, we note that a number are important policies that affect parents and students directly.

We would therefore recommend: in conjunction with any final version being approved and plans to implement in September, that the Board direct communications staff to create a summary of substantial changes to policies as a resource on the Board's webpage and document that CPIC can share with parent Councils and the broader parent community in the fall.

A handwritten signature in black ink, appearing to read "John Del Grande".

John Del Grande  
CPIC Chair
