

Transportation for Students with Special Education Needs

Transportation for students with special education needs is facilitated by the Toronto Student Transportation Group. Transportation is provided as required for all exceptional students at the elementary and secondary level, with the exception of students identified as gifted. Due to fiscal restraints the TCDSB is not able to provide transportation for students identified as gifted. The program for gifted is offered in selected regional schools and the students who attend the one day a week withdrawal program are responsible for their own transportation.

This issue of transportation for gifted has been raised by SEAC and will be included in the proposed consultation process and transportation review committee. Deliberations are contingent on Ministry funding changes which were proposed and delayed.

Exceptional students who attend programs within their own community are provided the regular transportation service in place for the school if it is appropriate. If alternate transportation arrangements are required they are provided.

Students approved to attend Provincial and Demonstration Schools are provided transportation services according to Ministry of Education guidelines.

The chart below outlines the 2017-2018 transportation budget for the TCDSB in regards to Special Education:

If the student's needs are such that he/she needs to be transported separately, then those decisions are made. As a specific example one student required transportation with the assistance of a health care attendant. These accommodations were provided. Process for deciding whether a student will be transported with other children or transported separately:

In TCDSB, decisions regarding how children will be transported is made on an individual basis. If a child can be transported with other children, that is the preferred method. When the regular home to school bus is possible (if the child's needs allow for them to use this type of bus), this bus is used. Placement in an ISP class through the IPRC process (Gifted excluded) ensures transportation is provided for the exceptional students, provided sufficient funding is available as approved by the School Board. The form of transportation can be via bus, taxi, van or wheelchair bus. The decision on which type of method is dependent on the needs of the child. Some children who come from the same area and are accessing the same service at the same school are not able to access the same mode of transportation due to emotional or physical needs. The need to transport children separately is determined based on discussions with the parent, principal and the Superintendent.

How Transportation Is Provided For Students in Care, Treatment and Correctional Facilities

Decisions regarding the transportation of children in care to their local school, or the school in which the programming they require is provided, is made in the same way as for children living with their parents; it is made on an individual basis. Principals, Superintendents and those providing care work together to provide the children with as seamless a transfer when they move to care as possible.

Children in treatment receive services throughout the day for a portion of the day or all of the day. Children who receive treatment for a portion of the day are generally transported individually for their treatment and returned to their school. Children who attend treatment centres all day for their classes, are assessed on an individual basis to determine what best suits their needs.

Transportation to Demonstration Schools:

Students who attend are provided transportation. Ministry does refund boards for 100% of the costs of transportation to the Demonstration Schools. There are currently no TCDSB students attending Provincial Schools at this time.

The Provincial piece of the Special Education in Ontario was seen as partially meeting the Standards set out in the Standards for School Boards' Special Education Plans. The following criteria was assessed by the Ministry as requiring more clarification.

How TCDSB Provides Transportation to Children Who Attend Provincial Schools

In TCDSB, decisions regarding how children will be transported to the provincially run schools is made on an individual basis. Children who require additional attendants (health-care professionals, for instance) have that care provided on the mode of transportation as well. The cost of transportation to Provincial Schools is 100% refundable.

For children who attend day schools they are transported by wheel chair accessible vehicle, mini bus, or school purpose minivans, depending on their needs from their home to the school.

Students who attend Residential Schools are provided transportation through the lead Board who in the GTA have the transportation facilitated by one of the local School Districts. They are picked up on Sunday evening and returned to their homes on Friday evening. The Provincial Schools and the agencies involved with the children determine the programming needs for the children and the type of transportation required.

1. Vehicles – General Requirements Regular Transportation

- (a) All vehicles used by the Bidder in the provision of Services under the Contract (including spare vehicles) shall be properly licensed, equipped, maintained and inspected with the applicable provisions of the Highway Traffic Act of Ontario, the Public Vehicles Act of Ontario and the Regulations made thereunder and all other applicable statutes, by-laws, regulations and orders from all authorities and governments having jurisdiction over the transportation of students, as amended from time to time.
- (b) Wheelchair vehicles must meet safety standards as required under the Highway Traffic Act under Vehicles for the Transportation of Physically Disabled Passengers and as amended and conform to C.S.A. D409 Standards.
- (c) All such vehicles must be manufactured to the most current C.S.A. D250 Standards for “School Buses”, or with the CAN3-D409 C.S.A. Standards “Motor Vehicles for the Transportation of Physically Disabled Persons”. A certificate of compliance with the standards shall be supplied to the Board(s) for its inspection for each of the vehicles to be utilized in the provision of the Services.
- (d) Vehicles used in the provision of the Services shall be a maximum of twelve (12) years old during the Term and average age of seven (7) years.
- (e) Where cars, or mini-vans are used, the passenger doors shall be equipped with child-proof locks which would prohibit the doors from being opened from the inside of the vehicle but would allow the doors to be opened from the outside of the vehicle. All vehicles shall be equipped with a back-up alarm.
- (f) The ambulatory, service and emergency doors on the vehicles shall be padded at the top edge.
- (g) All vehicles are to have their Event Data Recorders associated with the vehicle’s engine enabled.
- (h) The Bidder shall provide the most efficient vehicles available in order to perform the Services as economically as possible. Vehicles as large as eighty-four (84) seats or as small as four (4) seats may be used. Vehicle loading shall conform to the following seating capacity:
 - (i) Mini-Vans – five (5) passengers;
 - (j) Vans – fourteen (14) to twenty-four (24) passengers; a thirty (30) inch seat length is required to fit two (2) individuals per seat. Thirty (30%) percent of vehicles this size must hold eighteen (18) students.
 - (k) Large Bus seventy (70) to eighty-four (84) passengers.
- (l) The Bidder shall, at the time of submitting the Proposal, provide the Board(s) with the complete specifications of all vehicles that the Bidder proposes to use in the provision of the Services and yearly thereafter.
- (m) The Board(s) shall be entitled, at any time during the Term, to require delivery of a current, valid mechanical fitness certificate on any vehicle(s) at its sole discretion and at no cost to the Board(s).
- (n) The interior of all vehicles is to be maintained at all times in a clean and sanitary condition, acceptable to the Board(s). The exterior of the vehicles will be washed as needed to ensure a clean and professional appearance.

- (o) All vehicles shall be owned by the Bidder or shall be vehicles to which the Bidder shall be entitled to exclusive use and possession under chattel leases or conditional sales agreements from either the manufacturer thereof or a financial organization or institution involved in the financing thereof.
- (p) All vehicles in use to transport Board students that have GPS/AVL and/or video recording devices will be required to display a sign provided by the Consortium so that passengers are aware of their use on those vehicles.
- (q) The Bidder is encouraged to use fuel conservation and anti-idling technology wherever possible and feasible. The Boards' may implement an incentive program as a means to help the Bidder realize greater environmental efficiencies.
- (r) The Bidder will be required to adopt the Boards' 'Healthy School Bus Plan' as a means to minimize environmental damage.
- (s) If in the future the Ministry mandates the use of child seats on school buses the Bidder will purchase integrated seats where necessary and legislated by law. Older vehicles not equipped with integrated seats will require car seats to be installed. The Bidder will purchase the car seats and bill the appropriate Board for the cost of the seat. All labour costs for the installation of the car seats shall be borne by the Bidder.

2. Vehicles – Wheelchair Requirements

- (a) Wheelchair vehicles must have a minimum rated capacity of three (3) electric wheelchairs and two (2) ambulatory passengers. All wheelchairs in the vehicle shall be secured facing forward.
- (b) For every one hundred fifty (150) buses a Bidder operates as part of this Contract (am/pm count) they shall make available a large seventy-two (72) passenger integrated wheelchair bus with a minimum of two (2) wheelchair spaces for use by schools on charter trips.

All Wheelchair vehicles must be able to accept a variety of wheelchair configurations including, but not limited to, manual, electric, high back, reclining, and any combination of these types.

3. Drivers' Qualifications and Responsibilities

- (a) Drivers shall have and maintain in good standing at all times an Ontario Class B or Class E School Purpose Vehicle driver's license and any additional licenses required by the Public Vehicle Act, the Highway Traffic Act (Ontario) and/or the Toronto Licensing Commission By-Laws. Drivers shall satisfy all governmental requirements, and be trained according to the Ministry of Transportation and Communications "Training Guidelines for Drivers of Transportation Services for Physically Disabled Persons". A clear vulnerable sector search must be completed prior to transporting students.
- (b) All drivers must be trained in School Bus Safety Programs and Orientation/Evacuation Drills as outlined in Appendix F. New drivers shall be given a two week period to obtain this training.
- (c) All drivers must comply with the Toronto Municipal Code Chapter 545, Licensing Article XV Chapter 545-208.

The Bidder shall provide each driver with a wallet-sized identification card bearing a photograph of the employee, suitable identification, and the employer's name and address. This identification shall be visible to students and parents as they enter the vehicle.

The Bidder shall ensure that the driver of each vehicle utilized in the provision of Services shall at all times have in his/her possession on the vehicle or access to via dispatch an up-to-date list of the students being transported on such vehicle indicating their full names, pick-up addresses, destinations, schedule times and any other special instructions. The transportation on any vehicle of any persons other than bona fide students of the Board is expressly forbidden unless the prior authorization of the Consortium is obtained.

If the student's needs are such that he/she needs to be transported separately, then those decisions are made. As a specific example one student required transportation with the assistance of a health care attendant. These accommodations were provided. Process for deciding whether a student will be transported with other children or transported separately:

In TCDSB, decisions regarding how children will be transported is made on an individual basis. If a child can be transported with other children, that is the preferred method. When the regular home to school bus is possible (if the child's needs allow for them to use this type of bus), this bus is used. An IPRC guarantees transportation for the exceptional students provided sufficient funding is available as approved by the School Board. That transportation can be by bus, taxi, van or wheelchair bus. The decision on which type of method is dependent on the needs of the child. Some children who come from the same area and are accessing the same service at the same school are not able to access the same mode of transportation due to emotional or physical needs. The need to transport children separately is determined based on discussions with the parent, principal and the Superintendent.

How transportation is provided for students in care, treatment and correctional facilities

Decisions regarding the transportation of children in care to their local school, or the school in which the programming they require is provided, is made in the same way as for children living with their parents; it is made on an individual basis. Principals, Superintendents and those providing care work together to provide the children with as seamless a transfer when they move to care as possible.

Children in treatment receive services throughout the day for a portion of the day or all of the day. Children who receive treatment for a portion of the day are generally transported individually for their treatment and returned to their school. Children who attend treatment centres all day for their classes, are assessed on an individual basis to determine what best suits their needs.

Vehicles – General Requirements

1.1 All vehicles used by the Proponent in the provision of Services under the Contract (including spare vehicles) shall be properly licensed, equipped, maintained and inspected with the applicable provisions of the Highway Traffic Act of Ontario, the Public Vehicles Act of Ontario and the Regulations made thereunder and all other applicable statutes, by-laws, regulations and orders from all authorities and governments having jurisdiction over the transportation of students, as amended from time to time.
